

## Planning a Narrative Sequence of Events

Focus and write the events happen to the character(s). Write as much as you can.

### **First...**

- Where are the character(s)?
- What are the character(s) doing?
- What are the character(s) thinking?
- How do the character act and react to each other?

## **But then...**

- What changes?
  - Actions
  - Thoughts
  - Reaction
  - Setting
- What problem or conflict does the change create?

## Finally...

- How is the problem or conflict solved?
- What roles do the characters play in the resolution?
- How are the characters different?
